

EVERYTIME YOU TOUCH

V1
Come and wrap your arms around me now
Oh you feel so good beside me
Take my love and love me like you know how
Oh you feel so good inside me

Chorus 1
There's a still water flowing in me
It rushes round everytime you touch me and I
Know we could flow forever in this stream
Run and dance / take a chance with me now
In the night I dreamed about you
You took my hand forever / made me lay down
In a field so green

Chorus 2
Thoughts of you rush round my head now
I'm alive once was dead and I'll
Go anywhere in love with you

Chorus 1
Bridge
Oh I can tell.....you.....now / all the things I'm feeling for you
Oh I....need you now

**Solo/
V3**
In your eyes are streets of gold and how
I feel my feet gliding on your soul
In our hands we linger in the power
Of your love / Making me whole
